The Sun and the Earth

The Sun

High up in the sky

Did you know that the Sun is a star? It is the star which is nearest to the Earth and it's a million times bigger than the Earth. The Sun is over 4 billion years old!

We need the sun because it gives us sunlight and heat. Without the sun, there is no life. However, the sun's light is very dangerous. You should never look straight at the sun.

In ancient times, people thought the sun was a god. The Aztecs in Mexico and the Egyptians built pyramids for their Sun-gods!

2 Look up these words in a dictionary and write a definition.

1. million the number 1 000 000
2. sunlight the light that comes from the sun
3. heat warmth, hot temperature
4. life the experience or state of being alive

3 Read the text again and write T for True or F for False.

1. The Sun is a star. T
2. The Earth is bigger than the Sun. F
3. The Sun is a million years old. F
4. In ancient times, people thought the Sun was a god. T
